

## ***Phantom Tollbooth Questions***

### **Section 2**

**(from pages 71-142)**

5. Which is better, words or numbers? Why do you feel that way? Do members of your class prefer words over math and vice versa? Why do you think the author uses this dispute instead of a typical war? Do you think the author is trying to make a statement in regard to real war?
  
6. Tell about the cities of Illusions and Reality. What are the people like? Are real people in real cities similar to the residents of these two cities in the book? Why or why not?
  
7. What would you miss most about colors if all the colors in the world disappeared?
  
8. Suppose there were no rhyme or reason in the way people acted. Could they accomplish anything? Why or why not?
